## Newsletter Term 2 – Issue 4: June 24<sup>th</sup> 2016

### Principal's Report

I would like to commend our school community for their strong finish of Semester One. Despite the myriad of situations and responsibilities that our leadership and staff work through each day, we have maintained a steady focus on 'the best interests of our students' and the goals of our Strategic Plan. Our Senior Regional Advisor, Dennis Pratt and Denise Ramus, Assistant Regional Director attended our staff meeting to assure staff that the Department provides their full support to the leadership team of the College and they recognised the fantastic work that is being done by all staff. We appreciate their support and encouragement during a time when the media have reported on historical events that did not and do not reflect who we are as a College.

To quote from the letter from Katrina MacDonald, College Board President, "Anyone can make anonymous allegations. This does not make them true."

The staff at Mount Erin College are extremely disappointed about the negative articles in the press. They did a great disservice to our students who continually excel in so many areas. The articles were also grossly unfair to our highly dedicated staff who work incredibly hard to give students every opportunity to achieve their potential.

We are proud of our College!

The support from our local community and our parent body has been amazing and is a great reminder that Mount Erin is a thriving and successful school with a fabulous student body and professional, hardworking staff members who continually strive to improve.

The College is pleased with the very high number of Year 7 enrolments for 2017.

Our Year 12 students have completed their **GAT** and I would like to take this opportunity to encourage them to be mindful of distractions, set clear goals and to keep what

is important in focus. "Deciding what not to do is as important as deciding what to do" - Steve Jobs. This term break is the half way point and the data snapshot was made available online this week. I encourage all parents to read through these with their child, acknowledge the achievements that have been made and discuss goals for improvement. I encourage our students to take the time to consider: Is what I am doing getting me closer to my goals? Am I headed in a direction that helps me to fulfil my commitments? Am I maintaining a correct balance of priorities and a steady focus on what is important?

With the move to **continuous feedback** to students and parents, it is important for parents to open the Learning Tasks section on Compass and read the feedback provided throughout the semester enabling you to be better informed of the growth in learning that your child is achieving. Our aim with this model is to ensure that you receive regular information and can contact their teachers if you have concerns before the end of a unit of work. We will be undertaking a survey during next term to seek feedback from parents as to whether this new model is achieving its aims.

There has been terrific support for our **MESEM** team who have raised money this term for State Schools Relief, our sister school and the orphanage in Pumeteran, Headspace, as well as numerous other charities. I am proud that our students and staff are keen to make a difference in the lives of others.

This week Mount Erin entered several teams in both Year 7 and Year 8 **interschool sport**, completing in the following sports; Netball, Football and Soccer. Our year 7 girls netball team played exceptionally well, winning all of their games and the overall day winning the Southern Metropolitan flag. Our Year 8 girls netball 'B' team also had an excellent day winning all of their games bar one, giving them second place in their division. All teams played well, showed great sportsmanship and thoroughly enjoyed the day. On Thursday 23<sup>rd</sup>, 8 students represented the college in the Southern Metro Regional cross country, which was held at

Ballam Park. All students ran extremely well considering the poor weather conditions. We had 2 students successfully make it to the State Finals with Luke S. placing 6<sup>th</sup> in the U/14 boys 300m and Jenna C. also placing 6<sup>th</sup> in the U/16 girls 300m. Well done Luke and Jenna!

Mount Erin College, through the strong leadership team and dedicated staff, continues to provide varied teaching and learning approaches for our students, as a result from our connections with the wider community. On Monday 20<sup>th</sup> June, a group of students accompanied by Mr Collins and Steve and Vic Walker from the Baxter Village attended Frank Fest held at Cube 37 in Frankston to help mark World Elder Abuse Awareness Day. A film featuring the College's **Year 9 Winter Walkers program** was shown at a festival and highlighted the positive relationships formed by our students with residents of Village Baxter. It was certainly a "feelgood" contribution to the day's program and our entry won the award! Many thanks to Mr McCafferty for putting the film together and to Mrs Pudney for her tireless efforts in making Winter Walkers work! Thanks also to the Year 9 students who featured in the film. You're stars!

Our Senior School team ensured that the **exams** for Year 10, 11 and 12 students ran smoothly. I was very pleased with our student's approach to the exams. On Monday, 13<sup>th</sup> June we started Semester Two classes and students received their new timetables. Our Timetabler Peter Kaighin has done a great job ensuring our timetable was ready to go. The team has now commenced the extensive process of course counselling for 2017 as students plan for their future pathways.

This last week of term has been exceptionally busy but also one of great celebration. Our **Year 9 ASPIRE awards / City Week** information night was held on Tuesday night. I would like to congratulate Carolyn Scott and the Year 9 team for an outstanding presentation evening. The power point capturing the year to date prepared by Jackie Lewis was an exceptional way to commence the evening and both the ASPIRE awards and the awards for their Passion Projects left students so very proud of their achievements. A huge thank you to Ryan E. for managing the lighting, projection and sound.

Also on Tuesday night the **VCAL expo** was held which was a fabulous celebration of work completed in Semester One. Congratulations to Mrs Sherlock and the VCAL team for their leadership and dedication to ensuring students achieve great results. The Year 11s have also been presented with their ASPIRE awards during the week and demonstrated the commitment to the ASPIRE values held by our wider community as well as being modelled by our students who are clearly adaptable, socially aware, strive for their personal best whilst acting with integrity and responsibility to ensure that they continually achieve excellence in all aspects of their lives. Our Year 11

Coordinator, Jodie Van Gameren did a wonderful job organising these assemblies.

On Wednesday afternoon we were visited by Peta Murphy, **Labor Candidate for Dunkley** and Labor's Communications Spokesperson Jason Clare. They were very impressed by the students and staff that they met and the way in which Mount Erin integrates technology into how all students learn, whether it is in core subjects such as Maths and English or Design, or in specialist support for the deaf and hearing impaired.

Photos: Peta Murphy, Labor Candidate for Dunkley and Labor's Communications Spokesperson Jason Clare with SEAL students (above) and Deaf Education Students (below).

Wednesday night Tess K, Zoe B, Gabby W and Georgia E organised and hosted the **"Frame of Mind"** event. "Frame of Mind" is a fundraiser event at Mount Erin College to celebrate not only Mount Erin's art orientated students but also mental health awareness! The night included a range of performers, from singers, and dancers to musicians, as well as a collection of artwork all promoting mental health awareness. All money raised will be donated to Headspace (National) and the Sweet Water Creek Reserve. This was an outstanding event and special thanks goes to Mrs Lee, Mrs Sherlock, Mrs Pudney and Mr McCafferty for their support for the students organising this event. Well done girls!

Thursday night saw the **Year 7 and 8 Arts Academy** students put on their Showcase for Semester One. This was an outstanding event with dance, singing, short comedy skits and art work that highlighted these very talented young people. Special thanks to Christina Adams and Cameron Young for their support, inspiration and hard work to ensure that this event was a great success.

There were large numbers of staff at all of these events which students really appreciated and is a clear indication of the dedication and care that our staff demonstrate for the students of the College.

In Term 3, our focus will be **preparation for 2017** and further course counselling/subject selection will occur for the Year 8 and 9 students in the first few weeks of the term. We will welcome back Mrs Lee and Mrs Smalley from their much deserved Long Service Leave and welcome to the College Simone King (Indonesian Teacher and ex-student) and Matthew Baker (Health and PE Teacher).

Finally I wish everyone a wonderful midyear break.

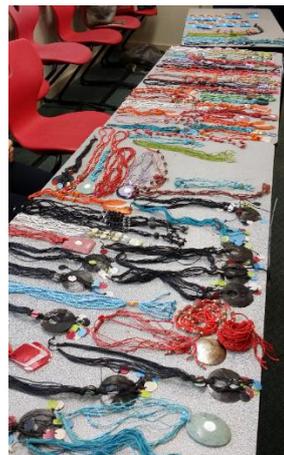

**Mrs Heather Worrall— Acting Principal**

(Mount Erin Student Events Management)

**Worlds Shortest Garage Sale**

Students, staff and our friends from Baxter Village enjoying the “Worlds Shortest Garage Sale”. Thanks to Ms Linz and MESEM students for all your hard work in making this a big success. There is already talk of the next one.

**Free Dress Day**

Monday 20<sup>th</sup> June we had a free dress day. We raised \$518 for our charities in Bali. Thanks to everyone who participated.

**Deaf Education Centre (DEC) News**

Here we are, on the home stretch to holidays. It has been another excellent term.

We have invited primary school students from across the South East that have a hearing loss to visit us, to see all that we can offer and we hope to welcome them next term.

Over the past 8 weeks, our students in Year 7 and 8, have been raising money for the Deafness Foundation Victoria by selling butterfly badges. To date, we are pleased to say, that we have raised almost \$250 and we still have a few more weeks to go. It's a great effort so far by the students and staff and many thanks to everyone who has bought them.

On Friday, Connor (Year7), set up a stall at the MESEM 'Garage Sale' at school to sell badges and delicious chocolate balls that he made. It's really great to see our students get so involved in the school community.

During term 3, we are looking forward to having two Student Teachers of the

Deaf come for training and the opportunity of working with our students. They join us from Melbourne University and will be with us for 3 weeks each (at different times).

Laura from Australian Hearing has continued to visit the school monthly, providing an invaluable service. Her visits have included conducting hearing tests, taking mould impressions, checking ear canals and answering questions.

Have a happy and safe holiday, relax, re-energise and enjoy the time with your family and friends. See you next term.

**Important Dates:**

- June 24<sup>th</sup> – Last Day of term
- July 11<sup>th</sup> – First Day Term 3
- July 19<sup>th</sup> – Australian Hearing Visit

DEC Staff.

**Staff Profile**

**Wayne Agg**

Describe your current role at Mount Erin College. I have several roles in the College. I teach in the Science Department and also in the Year 9 centre. Obviously Science is my passion and being involved in the Year 9 centre is where I put myself outside my comfort zone. I like the challenge that both these areas provide me. I share the Head of

Science role with Ms Dwyer – it has been great working with the science team setting up the new Science area. I am also the Occupational Health and Safety representative at the College. I get to work closely with the Principal team to help provide a safe working environment for all staff and students. I find it is very challenging but also very rewarding.

**What is your background in education?** I attended Red Hill Consolidated Primary School and then I headed off to the big smoke – Hastings High/Westernport College. I completed Year 12 in 1987. I then set out on my journey to become a teacher. I completed a Science Degree with Honours in Animal Physiology at La Trobe University, Bundoora. I had hoped to work in Marine Biology for some time before getting into teaching. The job prospects in Marine Biology, I discovered, were pretty low. So I headed back to University to complete a Bachelor of Education at Monash University, Clayton. My first teaching position was at Noble Park and I started at Mount Erin midway through 2007.

**Which things do you enjoy most about working at Mount Erin College?** I cannot narrow it to one thing. The staff are great to work with, very supportive and always willing to help each other out. They put in that extra effort to organise events for students and are always willing to give up their time to provide extra assistance when students need it. It would not be a College, obviously, without the students, they are amazing. Always willing to have a go at new challenges, help each other through the tough times but I also see them having fun along the way. I am also very excited about teaching in the new Science rooms and settling into the new Year 9 centre. Can't wait for City Week!

**What has been your highlight so far this year?** I think the highlight so far this year would have to be the Passion Project night with the Year 9 students. It is such a big build up for all involved and then to see the student's displays and hear them talk so proudly about their achievements – that was special.

**Tell us about your hobbies or passion outside of school.** Outside of school I spend a lot of time with my wife and two kids. The kids are into sport (basketball and cricket so far). I enjoy time down the beach over summer, but I'm just as happy heading up to the Murray to catch up with family. I enjoy watching sports, mainly AFL (Go Cats) and Cricket.

**Do you have a message you would like to share with the school community?** I am a big fan of Nelson Mandela, the work he did for the people of South Africa (and around the world I suppose) is very inspiring. I have a favourite quote from his Autobiography, 'Long Walk to Freedom.'  
*"It is what we make out of what we have, not what we are given, that separates one person from another"*

### **Year 8 and 9 SEAL Leadership Day**

As the SEAL Coordinator here at Mount Erin, I could not be more proud of our Year 8 and Year 9 SEAL students following their involvement in our annual SEAL Leadership day on Friday 10<sup>th</sup> June.

Students were invited to participate in a model United Nations program, where they explored a variety of options that can motivate them to become great leaders and global citizens. This was an extremely challenging and competitive program, where students were encouraged to negotiate, problem solve, effectively communicate, and explicitly analyse their individual leadership styles in order to work together for the greater good of the world.

*"I learnt the importance of having an open mind before making a decision."*

*"I gained a lot from this. I learnt that I can be a leader without being the most important. If you don't step up for change, then no change will happen."*

*"I realised how easy it is to make a mark on others, and the effect it can have."*

Intense negotiations begin with one aim: reducing carbon emissions in the world

*"It is always better to contribute and unite as one, rather than always just doing what's best for yourself and having a bad impact on other people. You achieve more as a team compared to working just by yourself. I think that's what we need right now, in*

*a world where so many people are caught up in wars and conflict."*

We'd like to thank Grant and Jon at High Resolves for their motivating program. A massive congratulations to 8A and 9A for their contribution and for inspiring each other (and your teachers!) to do great things. I look forward to seeing each of you put some of your leadership ideas into your schooling over the coming years.

**Miss Bray.**

### **Arts Academy News**

Jack M. from Arts Academy (Year 7) has recently done extremely well in the State Finals for Aerobics. Jack won a Bronze medal (Duo at State Finals), Gold medal (State auditions), Gold medal (solo, State Finals), Gold medal (FISAF Duo) and Gold medal (FISAF solo). Jack is now heading to Nationals in Brisbane in August with the goal of qualifying for Worlds in Vienna later this year. Jack trains at Action Sport Aerobics. Well done, Jack!

## Year 10 - Paying It Forward Project

Mount Erin has a history of young people that stand up and make a difference. Events like '4 kids by kids' 'RSPCA Cupcake Day', 'Footy Day for the Reach Foundation' and it goes on and on. Year 10 Students worked on a 'Paying it Forward Project' where they did between one and three good deeds for others without asking for anything in return. Instead the recipient should be instructed to *pay it forward* to someone else in need. Students raised funds for their charities by having stands at the 'Worlds Shortest Garage Sale.'

Miss Barrett

Congratulations to Jack D. Year 12 who was Dandenong Stingrays best player last week in the TAC cup.

**Caltex Starmart Player of the Week – Rd 9.**

19 Disposals, 8 Handball Receives, 3 Marks.

## Enchanted Maze Excursion

Last Thursday and Friday the Sports Academy team took out 160 students within the Sports Academy Program from Years 7 - 11 to the Enchanted Maze at Arthurs Seat for a day of tree surfing, mazes and tube sliding. The day was a huge success with student's learning to challenge themselves throughout the obstacles high up in the tree tops and further develop their team work skills by encouraging each other (and members of the public) through each challenge. All student's thoroughly enjoyed themselves and showed great enthusiasm and team work.

## Food Technology

### Year 10 Gingerbread Houses

## Recipe

Here is a delicious recipe that the Year 8 classes have cooked this term. It makes a great winter meal, so try it over the holidays. This recipe is shared between two students.

### Meatballs with Tomato sauce

<u>Ingredients</u>	<u>Method</u>
<p><b><u>MEATBALLS</u></b> 300 gm minced beef ¼ onion – chopped finely ½ carrot – grated ¼ zucchini grated 2 tbl egg ½ tsp bbq sauce 2 tbl breadcrumbs ½ tsp curry powder ½ clove garlic – crushed Salt and pepper</p> <p>¼ cup plain flour for rolling 2 tbl oil for frying</p> <p><b><u>SAUCE</u></b> ½ cup tinned tomatoes ¼ cup Passata 2 tbl tomato paste</p> 	<p><b><u>MEATBALLS</u></b></p> <ol style="list-style-type: none"><li>1. Combine all ingredients in a bowl and mix well.</li><li>2. Roll meatballs into tablespoon size balls then toss in plain flour.</li><li>3. Heat oil in frying pan and fry meatballs until cooked through, turning constantly. DO NOT have the heat too high or they will burn.</li><li>4. Drain on paper towel. Place on serving plate.</li></ol> <p><b><u>SAUCE</u></b></p> <ol style="list-style-type: none"><li>1. Combine all ingredients in a saucepan and bring to the boil. Reduce heat and cook 4 minutes.</li><li>2. Pour over meatballs and serve</li></ol>

## Jobs in Green Army on the Mornington

### Peninsula right now!!

The Green Army has asked me whether we may be able to help out in filling some upcoming teams. They are about to start 3 new crews on the Peninsula in the next 2 weeks. Each crew aims to have 9-10 members, aged between 17 and 24, who have some interest in physical/outdoor/conservation work. They are paid a training wage, work 6 hours per day and have one day paid study a week to complete units towards a Cert 2 in Conservation/Land Management. There may be some of our year 12's/VCAL's that might be interested in a job. Each project lasts for about 6 months but can also lead to ongoing employment via the stakeholders.

## Tailored tool helps maths students leap years ahead

While 42 per cent of Australia's 15-year-olds are not proficient in maths according to international standards, and the difference in ability in any one class may be up to eight year levels, there are solutions for teachers and students, according to the Australian Learning Lecture (ALL) which is run from the State Library Victoria and seeks to bring big ideas in education to national attention.

ALL's latest case study, *Maths Pathway*, showcases a personalised maths teaching program developed by two Teach For Australia Associates, which is helping students at Bacchus Marsh College to achieve significant growth in their maths skills.

"Our students are coming into Year 7 with a wide range of maths ability – from Grade 2 to Year 8 level," says Samantha Goodman, Teaching and Learning Leading Teacher at Bacchus Marsh College.

"Ideally we'd be looking at a growth rate of 100 per cent – which is one grade level's growth over a calendar year, but our students often perform above that now. Many of them are performing at an average of 160 per cent to 200 per cent."

This ALL case study shows how student data is used to personalise teaching and target

Samantha Goodman, Teaching and Learning Leading Teacher at Bacchus Marsh College

students' needs, while enabling students to track their own growth.

While an average Australian student learning from the textbook will grow 0.6 maths grade levels each year, the average growth for a student using Maths Pathway is 1.2 grade levels.

"At the start of the program the students do a diagnostic assessment to identify their strengths and weaknesses. The program then allocates worksheets based on their weaknesses, in order to build up those foundation skills before we add on higher level tasks," Goodman said.

"Teachers use the Maths Pathway data to set individual classwork at the 'Goldilocks zone of learning' – not too hard, not too easy – just right.

"I might have one student learning about place value, one on algebra, one on something else because that's what they're ready for. Our teachers love the data provided by Maths Pathway because they can identify issues and work with small groups more effectively."

Maths Pathway co-founder Justin Matthys explains that the key focus of the program is the amount of growth that students display, not whether they're at a particular point at a particular time in the year.

"What we care about is not how much work the student has done, it's about how much new maths have they learned. Students who were learning nothing are now learning something, and a lot of them are learning an awful lot."

Maths Pathway got going in July 2013 when the two founders quit their teaching jobs, after 18 months of preliminary work, and set up in a shed. The first schools signed on that September, including Emerald Secondary College and Lavalla Catholic College in Traralgon. According to the Maths Pathway website, 109 schools, 912 teachers and more than 22,000 students are now using the system.

## Community Dental Online Referral

The rates of poor oral health in Frankston and the Mornington Peninsula show that more people need to take better care of their teeth. This means eating a healthy diet, brushing and flossing regularly and visiting the dentist every 12 months.

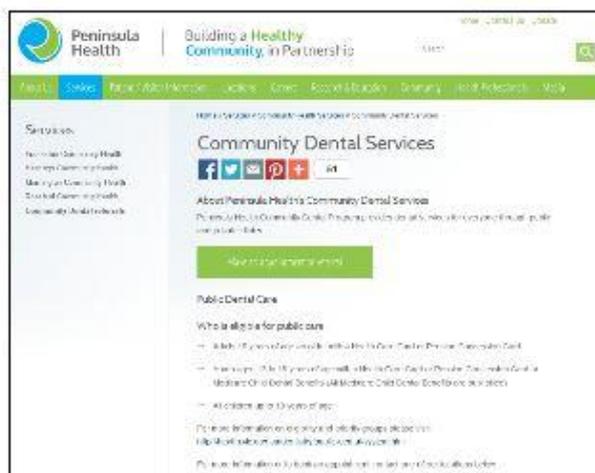

An online referral form has been developed by Peninsula Health to help you access public dental care.

Anyone can make a referral to Community Dental with this easy-to-use online form. You can refer yourself, your child or even a friend.

The following people can receive treatment at Community Dental:

- All children up to 13 years of age
- Youth aged 13 to 18 years of age with a Health Care Card or Pension Concession Card or Medicare Child Dental Benefits (All Medicare Child Dental Benefits are bulk billed)
- Adults 18 years of age an older with a Health Care Card or Pension Concession Card

To access to online referral form, go to [www.peninsulahealth.org.au/dental](http://www.peninsulahealth.org.au/dental)

The mainstreaming of pornography

More than **90%** of boys aged between 13 and 16, have seen online porn

More than **60%** of girls aged between 13 and 16, have seen online porn

**88%** of scenes of the most popular porn include physical aggression

About **30%** of all internet traffic is porn related

Porn has become the default sexuality educator for young people. Readily available and aggressively marketed online, exposure to hardcore pornography is now mainstream.

Join us for a presentation and Q & A with Maree Crabbe, community educator on pornography and young people, and learn more about how to face the challenges of equipping your child for a sexuality that is safe, respectful and fully consenting.

## Presenter

**Maree Crabbe** coordinates the *Reality & Risk: Pornography, young people and sexuality*, community education project. She is co-producer and co-director of two documentaries, *Love and Sex in an Age of Pornography*, and *The Porn Factor*. She is also the author of *In The Picture*, a secondary school resource addressing the influence of explicit sexual imagery on young people.

Maree has worked with young people in the community sector for over 20 years. She has developed and delivered programs focusing on sexual violence prevention, sexual diversity and prevention of sexually transmissible infections.
