Mount Erin College
Bus Information Kit

**Please complete the documentation in this booklet and return
Form 1 Application for Permission to Travel and the completed
Parent / Guardian and Student signed Consent Form to the
Administration Office**

MOUNT ERIN COLLEGE

SCHOOL BUS SERVICES

Important Information regarding the Pearcedale Charter Bus

There are a number of students who reside in the Pearcedale area that are ineligible for free bus travel, as they are not attending their closest government secondary school and do not meet any of the Exemption Criteria listed below.

The College has arranged to Charter a Bus that enables ineligible students to travel to Pearcedale in the afternoon.

There is a charge per term, payable in advance, to travel on the Pearcedale Charter Bus. Once payment has been received students are issued with a Bus Pass for that term.

The College subsidises the cost of the Pearcedale Charter Bus to make it affordable for families. We will continue to provide this Service whilst there is sufficient demand. The Timetable for the Pearcedale Charter Bus is provided below.

School Bus Program – Policies and Procedures Victorian Government School Bus Services

While parents/guardians have primary responsibility for transporting their children to and from school, the School Bus Program assists families in rural and regional Victoria by transporting students to school. The program services both government and non-government schools. Categories of eligibility determine whether a student travels at no cost or travels upon the payment of a fare.

Students wishing to access a seat on a bus must complete an application form and parents/guardians must agree to the conditions of travel including, if applicable, the payment of a fare.

Public Transport Victoria (PTV) and the Student Transport Unit conduct regular audits of the State's School Bus Services. These audits involve reviews of student eligibility for free bus travel on one of Victoria's School Bus Services and the number of eligible students on each service as well as demand for the School Bus Services across the State. These audits may result in some School Bus Services being cancelled if there are insufficient numbers of students eligible and reallocated to other areas to meet demand.

Please contact John Kenyon, School Bus Coordinator on 5971 6000, if you have any questions in relation to Mount Erin College's School Bus Program. Below are excerpts of the relevant sections from the School Bus Program – Policies and Procedures, January 2016.

Eligibility for free bus travel

Criteria 1 - Closest appropriate school Government schools

To be eligible for the School Bus Program, government school students must attend their nearest school / campus appropriate to their year level.

'Nearest' is measured by the shortest practicable route, driveable by car, from the student's residential driveway to the school administration gate.

Criteria 2 – Reside 4.8 km or more from the school

To be eligible for the SBP, students must reside 4.8 km or more from the school/campus they attend. This distance is measured by the shortest practicable route, driveable by car, from the student's residential driveway to the school administration gate.

Exemptions

Students not attending their nearest appropriate non-government school may be granted exemption in the circumstances listed below.

Siblings will be considered on their own merit on a case by case basis.

Students granted exemption in the circumstances listed below cannot, on their own, form a case for additions, retentions or modifications of services.

School enrolment zones

Where regionally approved enrolment zones are in place, the Designated Neighbourhood School (DNS) is considered to be the nearest school/campus for the purposes of the SBP.

An enrolment zone must strictly limit entitlement to enrol in a school to only those students who reside in a defined geographical area. Evidence of regional approval of the zone must be provided to the Coordinating School by the client school.

If a student's closest government school is one with an enrolment zone but the student lives outside the zone and is therefore not able to enrol at the school they may be eligible for free bus travel to their next closest government school.

Refused entry to closest government school

If entry to the closest government school/campus is refused on the grounds the school is at capacity, students may travel to the next nearest government school and still be considered to be attending their closest school for the purposes of this program. Students in this category are therefore eligible to travel at no cost. Evidence of refused entry from all closer schools is required to be submitted with the application to travel. This is usually in the form of a letter from the principal of the closer school.

Subject choice for students in Years 11 and 12

Year 11 and 12 students may travel to a more distant school/campus of the same denomination if two or more of their chosen subjects are not available at their nearest appropriate school/campus. These students will be considered to be attending their nearest appropriate school/campus and eligible for the SBP.

Change of address

If a student changes residential address, a new application must be made to the coordinating school and assessed against all criteria.

Sibling entitlement

Siblings will be considered on their own merit on a case by case basis.

Siblings of the exempted family member are not automatically granted an exemption of their own. Each family member seeking an exemption must submit a separate application to the coordinating school.

Students who reside at more than one address

Coordinating Principals may approve students who reside at more than one address to access more than one service.

If a student is eligible from one of their two residential addresses, they may be permitted to access two bus services at no cost.

Attending a DET recognised accelerated learning program

Students who are attending a DET recognised Select Entry Accelerated Learning (SEAL) program are considered to be attending their nearest government school/campus. Students in this category are eligible to travel at no cost.

*This Exemption **does not** apply to any other Specialist Programs that schools may offer.*

Criteria 3 – Ineligible Students accessing the School Bus Program

Exemptions for ineligible students to access the bus at no cost

The Coordinating Principal may approve exemptions from the eligibility criteria for students who would otherwise be considered ineligible. The exemptions are limited and specific and detailed below. Students accessing a bus service under an exemption are able to travel at no cost.

The Coordinating Principal determines which exempted students have priority of access. The Coordinating Principal should give preference to students with special needs or those travelling both morning and afternoon five days a week.

If after applying these criteria there is more seating available, preference should be given to those who have the greatest distance to travel and to the youngest students.

Exempt students cannot form part of a case for additions, retentions or modifications of services.

Applications for Permission to Travel

All students who wish to access a School Bus Service must complete an Application Form each year. ***An Application for Permission to Travel is enclosed in this Information Booklet. Once the Application Form has been completed it needs to be handed in to the Office along with the completed Parent / Guardian and Student signed Consent Form.***

The Bus Coordinator will then check all details and then determine whether the student meets the Eligibility Criteria for free travel.

Questions related to our College's School Bus Services should be referred to the College's Bus Coordinator.

Mount Erin College Bus Stops

AM

698 Hastings Bus

Pick Up Stop No.	Time	Pick Up Point	Melways Ref	
1	7.42	Hodgkins Road, (1st bus stop after rail line)
